Allowable Subject Matter

- 1. Claims 1, 3 9, 11 15 and 17 20 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a system and method for facilitating group communications whereas an overlay cell is provided that provides for group communications amongst mobile units in underlying underlay cells.

Applicant's independent claim 1 recites, *inter alia*, a method for facilitating communications amongst a plurality of mobile units in a network with a structure as defined in the specification (pages 4 – 8) including establishing an association between underlay cells that comprise the at least two mobile units and the overlay communication cell; and establishing a group communication call in which at least one of the plurality of mobile units communicates with at least another of the plurality of mobile units using the overlay cell wherein the establishing the group call includes listening for a page to set up the group call. Applicant's independent claim 1 comprises a particular combination of element, which is neither taught nor suggested by the prior art.

Accordingly, applicant's claims are allowed for these reasons and for the reasons recited by applicant in the amendment filed on 3/13/2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
